MEMORANDUM FOR: Chief, A37 Division/PO432, NSA

25X1A

ATTENTION:

DECLASSIFICATION REVIEW BY NIMA / DoD

FROM:

Chief, CIA/PID (NPIC)

SUBJECT:

A Search for Possible Radar and SAM Activity East of  
Leningrad

REFERENCES:

- (a) Requirement
- (b) CIA/PID Project C 255-64

1. This memorandum is in response to your requirement dated 3 February 1964 requesting a search for possible radars and/or SAM sites within an area bounded by the coordinates 50-40N 35-00E, 60-50N 36-00E, 59-40N 38-40E and 60-50N 38-40E.

2. NPIC has not identified any SAM sites within the search area and a re-examination of the photographic coverage resulted in negative findings for SAM activity in cloud-free areas. The scale and the quality of the available photography over the search area precludes identification of radar. The following most recent missions were used in the search.

25X1D

Due to the fact that portions of the search area were cloud covered on all missions, a confirmation or negation of SAM activity and radars is not possible at this time.

25X1A

3. The photo analyst on this project is who may be contacted on extension should you have any further questions regarding this project.

4. This project is considered to be complete.
